Bookcases No. 11
At a time when everything is changing, there is a growing need for a flexible interior design. We are not reading a lot of books any more. We sell or donate our items and furniture for recycling. We need tomorrow to adapt to us.

No. 11, takes into account this fluctuating lifestyle. For a while, you need bookcases. Another time it is the need for storage of e.g. games. A third time it is perhaps the need for built-in speakers. Last but not least, there is always a need for a shelving system that is not difficult to install, as well as the ability to "rebuild", "expand" or just change when you get tired of the existing configuration.

No. 11 is available in two depths 38.4 and 25.6 and the heights 38.4, 76.8 and the widths 38.4 and 76.8 cm.
