TABLE NO. 37

by:carstenbuhl.com

Table No. 37
With its elegant soft curves and the explicit quality and design, Table No. 37 goes back in history.
The high frame and lightweight table top enables the possibility for a large span between the visually feather-light molded legs.

The table is made of molded legs and a molded frame / edge. The table top can be delivered with leather, linoleum or 3 mm wooden veneer.
The table height is 72 cm, which means that any chair with armrests must have an arm height of less than 67 cm in order to be pushed completely in under the table.
