Table No. 60
Table No. 60 also called "myBubble" is a new way to work in noisy areas. Seated in front of myBubble you are shielded against the noise and pulse around you.

The height of the table can be ajusted from 720 - 1100 mm. The wheels can be locked so the table is stayng on the spot.

The tabletop is made of a solid wood or a plywood board with a veneer top. The veneer shell can be upholstered in various fabrics so the table either adapts to the space, or becomes a visually decorative object

It is time to get creative.
